DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-37, 41-46, drawn to multi-channel communication, classified in class 375, subclass 260.
- II. Claims 38-40, drawn to a specific method for determining a threshold, classified in class 370, subclass 252.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as it could be utilized for determining a threshold in an environment that is different than those in invention I and invention I does not require the use of invention II together. See MPEP § 806.05(d).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dac V. Ha whose telephone number is 571-273-3040. The examiner can normally be reached on 5/4.
